Dear Parents & Carers

There has been an immense amount of disruption to education in recent years. I consider that we have maintained a good level of support and structure and after the recent strike disruption by the Teacher's Unions, I have informed all staff that our focus for the remainder of this term will be the structures, protocols and learning that we know our young people need to build the skills for a positive future.

My senior team and Governors of the Academy will be looking at the core structures of learning, the pace of lessons, the participation of pupils and the progress that we are all making.

I believe in looking smart and having a positive attitude to attempt every aspect of our daily challenges and this is something that all staff in the Academy will be focussing on for not just themselves, but the pupils in our care.

I hope you will all support me in this foci, and I hope that the majority of our disruption to education across the country is now behind us.

Yours sincerely

Mr J Selmes
Head Teacher
