Dunstable Project

Today, we enjoyed a talk from two archaeologists. These are people who study past human activity by looking at objects and sites of historical interest. We learned all about the history of Leighton Buzzard and Dunstable.

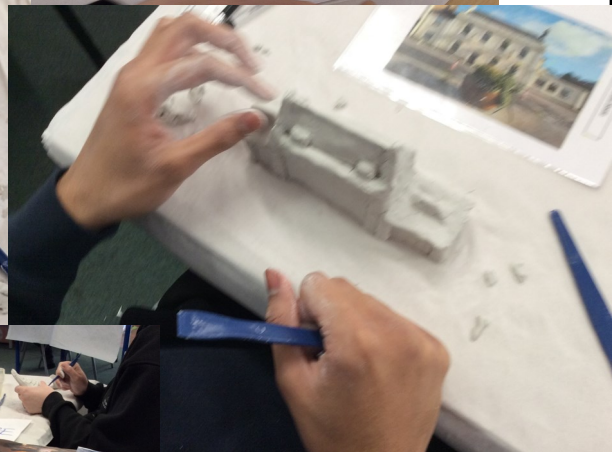

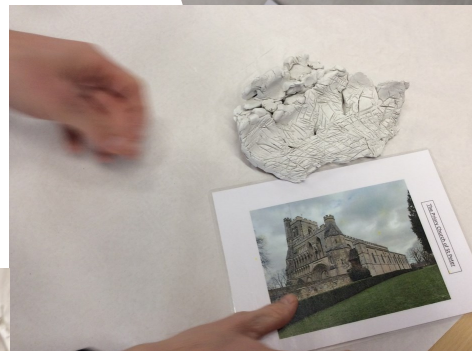

We used air dry clay to create a building for the town of Dunstable. We looked at buildings from the past and present to help to inspire our ideas. We had lots of fun.

Curtis said, "I love this. I would definitely like to dig and find out about the past. I'd like to be an archaeologist when I'm older."

Rosie, Lionel, Shay, Curtis and Rhianna.

Dunstable Project Continued....

Bikeability

On 7th March, students had the opportunity to participate on a course for Bikeability.

The students in Level 1 learnt how to maintain their bikes, how to control their bikes and how to be aware of their surroundings.

The students in Level 2 learnt how to pass stationary vehicles parked on the road, negotiate the road, understand signals, signs and road markings, and how to safely share the road with other vehicles.

All students that participated passed the courses.

KS3 Caldecotte Trip

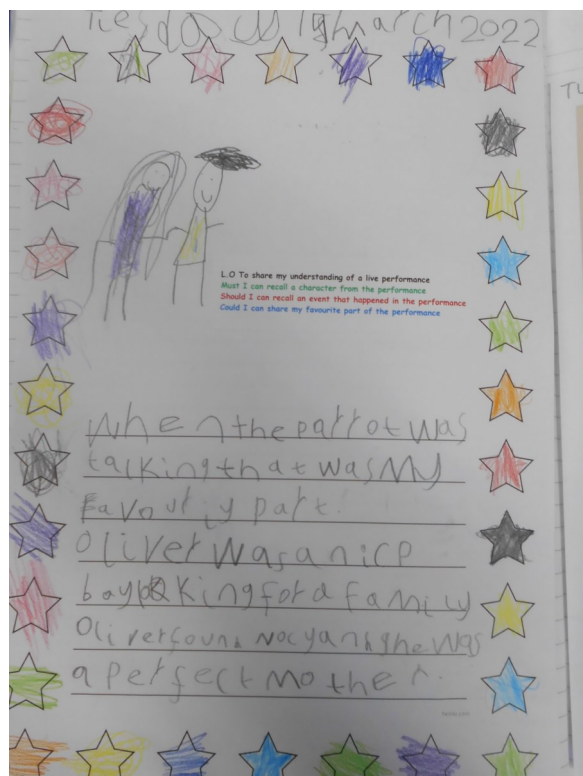

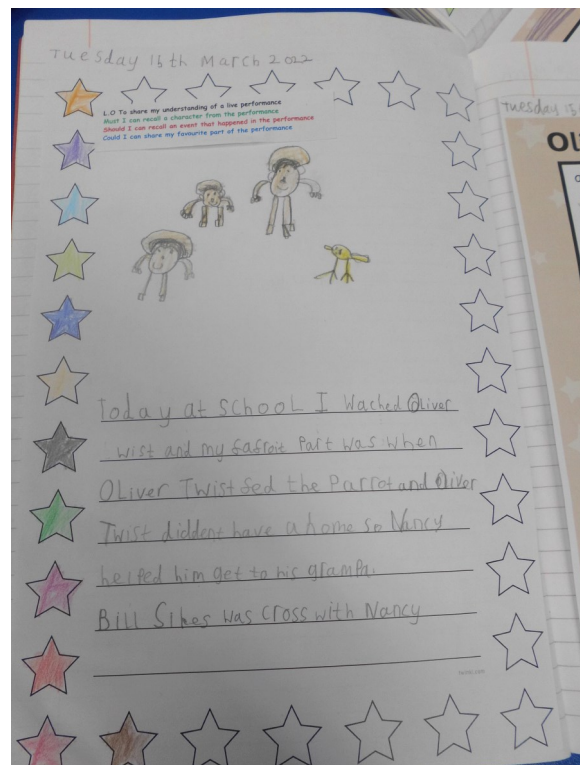

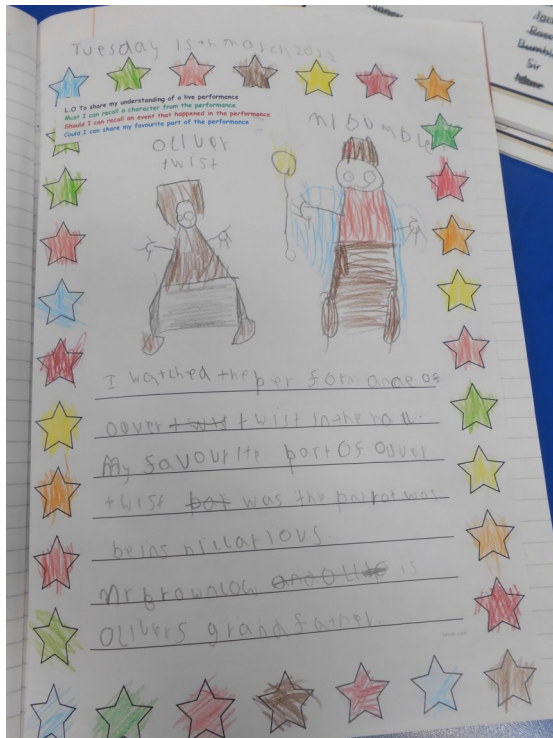

Twenty KS3 students had a fantastic time at Caldecotte Xperience this week, students and staff enjoyed messy activities, some ended up with shaving foam on their heads and some enjoyed sitting in gunge! We also enjoyed kayaking and jumping into the cold lake, climbing up the climbing wall and hanging around on ropes whilst stacking crates.

Oliver Twist

Primary enjoyed watching Oliver Twist. There was lots of laughter at Fagin's parrot.

2AG completed some work sharing their individual thoughts on the show.

Mother's Day Service

I go to Scouts every Friday after school and we do a range of fun activities to earn badges.

Last week, to earn our electronics badge we were taught to solder wires together to make a circuit.

This circuit when plugged into a laptop or USB charger will light up.

On Sunday 27th March there was a Mother's Day service at Priory church. I asked if I could carry the scout's flag down the aisle of the church to represent the 3rd Dunstable.

Sea Cadet Awards

Congratulations to Lucas Harvey-Barrett on receiving these awards:

Junior Sea Cadet of the Year.
Junior Boater of the Year and
Rower of the Year (beating senior cadets at this this).

He has also received a certificate for snorkelling.

Head Teacher's Lunch

Congratulations to these students that have been selected to sit with Mrs Drury and Mr Meenan for lunch on Friday 1st April.

Key Stage 2 - Jamie McCarthy
Key Stage 3 - Chinasa Ezech
Key Stage 4 - Samuel Roper
Key Stage 5 - Jake Patane

Raising Money For Marie Curie

This March KS5 students have been busy raising money for the cancer charity, Marie Curie. Every Friday a group of KS5 students have volunteered outside of Morrison's in Houghton Regis, with their easily recognisable yellow bibs and daffodils.

Students had to work as a team, help each other, communicate with members of public and use their initiative to problem solve. They did a fantastic job, greeting and welcoming customers with smiles on their faces, gifting daffodils and using their best manners making the whole school proud.

They raised an outstanding amount of money.

Well done to everyone that participated in this worthy cause!!!

Iva Ferguson

The following children were selected by staff as clearly demonstrating this half term's

Lucas Downing
Hayes Guess
Tristan Decoito
Toby Hawkes
Kirsty Harrower
Libby Phillips
All of 4KO
Usman Khalid
Jack Hayes
Charlotte King
Amber Keeley
Jack Watts
Alim Glancy
Jaheim Fenlon
Zehim Holmes-Zafar
