

**WEATHERFIELD ACADEMY SPECIAL SCHOOL
CAREERS PROGRAMME**

CAREERS PROGRAMME OVERVIEW

The main areas of focus for our Careers Programme are: -

SELF DEVELOPMENT – Encouraging our students to understand themselves, their abilities and the influences on them.

CAREER EXPLORATION – To investigate opportunities in learning and work for all our students.

CAREER MANAGEMENT – To allow our students to make and adjust plans to help them manage change and transition.

Our Careers Programme offers all our students the opportunities to empower themselves to plan and manage their futures. As educators we respond to the needs of our learners and provide them with comprehensive, impartial information and advice. There is a focus on raising their aspirations to **‘become the best person they can be’**.

We actively promote equality of opportunity and challenge stereotypes and ensure we ultimately help our students to progress.
