AS/NP							
Key focus		<p>Pupils will be introduced to the concept of invasion games. Lessons will include focus upon throwing and catching, attack and defence, being aware of a playing area and the pupils' role in their team. Pupils will be introduced to a range of equipment that is used in invasion games including basketballs, rugby balls and footballs.</p> <p>While pupils will not focus upon a specific sport for the term, they will play conditioned games with a range of balls used for different sports.</p> <p>Questions from staff will begin to ask the pupils to explain what the purpose of a game is, or their specific role in the team.</p>	<p>Lessons will focus on pupils working cooperatively, can they work as a team on a series of challenges set by the teacher. The lessons will start with small challenges in pairs, eventually building up to more demanding work in bigger groups.</p> <p>Students will be encouraged to accept failure and work together to think about how they can improve moving forward.</p> <p>The culmination of the lessons will include map reading skills</p>	<p>Pupils will explore a range of movements during their gymnastics lessons. Students will follow movements created by staff in the form of mirroring. They will be challenged to hold a range of balances, and progress to moving from balances in the form of sequencing, working in pairs and small groups as they do this.</p> <p>Lessons will culminate in pupils creating movements and balances on equipment (eg, benches, horses)</p>	<p>Students will revisit invasion games studied in Autumn 2. This term will focus more on game play, small-sided games with the emphasis on pupils learning about the principle of attack and defense, as well as the ability to keep score. Pupils will be challenged to think about how they personally performed, as well as how their team got on.</p> <p>Pupils will work with a range of sports equipment again, with the aim of slowly building in the rules of the corresponding game.</p>	<p>Pupils will spend lessons learning how to hold a racket (tennis, badminton or table tennis) and the skills required to strike the ball.</p> <p>Lessons will primarily focus upon pupils working individually to become more proficient at holding and striking, with different balls being used to help or challenge pupils accordingly.</p> <p>Lessons will culminate in pupils attempting to hit the object to another classmate, with more able students beginning the process of playing matches with one another.</p>	<p>Students will be given an introduction to athletics. Lessons will cover the following disciplines</p> <ul style="list-style-type: none"> ● Running ● Jumping ● Throwing <p>Running lessons will be delivered with a variety of fun games over varying distances. Pupils will aim to understand the idea of changing pace dependent upon the distance being run.</p> <p>Jumping lessons will encourage pupils to practice jumping from 2-2, 2-1 and 1-1 feet</p> <p>Throwing lessons will allow pupils to use adapted javelins, shots and discuss to explore how to throw them effectively</p>
